Ref: Request for hearing  
Change of Service: Verizon/Farmers Coop.

Chief Clerk,

This letter is to request the change of Service from Verizon Telephone, to Farmers Telephone.

I reside at 2495 West Hwy 378, Pamplico, SC and have maintained this address as part of a family business for 59 years. This location has always had both services and today still maintains wiring to property for both companies, with only Verizon dial tone.

I have been in contact with Verizon to provide me with DSL service or some means of High Speed Access to the Internet. I have been informed after exhausting all means of obtaining this service that it will not be available to me.

I am right on the line between the two companies, separated by Friendfield Road, with a Hub for High Speed access. Currently with a line and pole to building that I occupy for a business that would benefit greatly by access to DSL or any type of high speed other than dial up access.

I have spoken many times with Farmers Telephone and met with field engineers to ensure that if I got permission from you or consent from Verizon that they would be happy to give me the service I need to make my business more profitable.

I would like to request this approval and or request a hearing to resolve this matter in a timely manner.

My contact info:  
Carraways Treasures & Collectibles  
2495 West Hwy 378  
Pamplico, SC 29583  
843-493-1626

Sincerely,  
Richard Carraway

A handwritten signature in cursive script that reads "Richard Carraway".
